Essilor finalizes the acquisition of Transitions Optical

Charenton-le-Pont, France (April 1st, 2014) – Essilor International announces that it has finalized the acquisition of PPG Industries’ 51% ownership stake in **Transitions Optical**, the world’s leading provider of photochromic lenses to optical manufacturers, and 100% of the capital of **Intercast**, a manufacturer of premium sun lenses.

The transaction, announced on July 29, 2013, was approved without conditions by competition authorities in Australia, Brazil, Germany, New Zealand, Portugal, Spain, the United Kingdom and the United States.

Founded in 1990 and based in Pinellas Park, Florida (USA), Transitions Optical reported sales of \$844 million in 2013, of which \$279 million with lens manufacturers other than Essilor.

“The acquisition of Transitions is a significant and highly promising transaction for Essilor,” commented Hubert Sagnières, Chairman and Chief Executive Officer of Essilor. *“We will give Transitions the resources it needs to speed its growth and allow the Group to broaden its expansion in photochromic lenses, both worldwide and in different market segments.”*

The consideration for the transaction amounts to \$1.73 billion at closing, subject to customary post-closing adjustments, plus a deferred payment of \$125 million over five years.

Transitions Optical and Intercast will be fully consolidated in Essilor’s financial statements as from April 1st, 2014.

- An increase in the Group’s contribution margin¹ of around 150 bps as from year two of the integration.
- An accretive effect on earnings per share as from 2014, representing at least 5% a year in subsequent years.
